Professional Summary:

- Software Engineer with 6+ years of experience. Deeply passionate about Software Testing and Quality Assurance.
- Strong understanding of application architecture, APIs, databases, and end-to-end system workflows, enabling a deeper and more effective approach to testing.
- Hands-on experience in Manual Testing, Test Case Design, API Testing, and Defect Tracking, with a clear long-term goal of growing into Automation Testing / SDET roles.
- Actively strengthening my testing expertise through hands-on practice, real-world scenarios, and continuous learning.

Core Skills:

- **Testing & Quality Assurance:** Manual Testing, Test Case Design, Functional Testing, Regression Testing, API Testing, Defect Tracking, SDLC & STLC, Agile/Scrum
- **Technical Background:** Java, Spring Boot, REST APIs, SQL, Angular, Typescript, JavaScript, CSS, HTML
- **Tools:** Postman, Git, Maven, JIRA

Professional Experience:

Capgemini Technology Services India Limited – Consultant
May 2024 – July 2025 | Pune, Maharashtra

- Actively contributed to application quality by validating features, identifying defects, and supporting defect resolution in enterprise applications.
- Validated REST APIs using Postman and performed backend data verification using SQL.
- Collaborated closely with developers, product owners, and QA teams in an Agile environment to ensure high-quality and stable releases.
- Designed and executed test scenarios based on functional requirements and business workflows.
- Analyzed requirements, identified edge cases, and supported defect fixing with clear reproduction steps.
  Technologies: Java, Spring Boot, SQL Server, GitHub

Future Focus InfoTech Pvt. Ltd. – Senior Software Developer
Jan 2021 – Aug 2021 | Pune, Maharashtra

- Contributed to a web-based application used by engineers for releasing and managing automobile parts.
- Gained strong exposure to end-to-end application flow, UI validation, and backend logic verification.
- Participated in defect fixing, regression checks, and feature validations before releases.
  Technologies: Java, Spring Boot, Angular, SQL Server, GitHub

Larsen & Toubro Infotech – Senior Software Engineer

Jun 2016 – Jun 2020 | Pune, Maharashtra

- Worked on large-scale service and CRM applications used by 700+ field engineers.
- Validated business workflows such as work orders, timesheets, expenses, and approvals.
- Validated dashboards, reports, and role-based access features to ensure functional accuracy.
- Collaborated closely with QA and business teams to ensure functional correctness.
  Technologies: Java, Spring Boot, Angular, SQL Server, BitBucket

Certifications:

- Java & Angular Full Stack – Capgemini (Ocean Assessment)
- Java – International Knowledge Measurement (IKM)
- Java – CEB SHL Talent Measurement
- Microsoft Technology Associate – Database Administration Fundamentals

Education:

Bachelor of Engineering (Computer Science & Engineering) – 2015

 - Sushila Devi Bansal College of Technology, Indore, Madhya Pradesh
